NUM. 2321

TUESDAY, NOVEMBER 30. 1742.

To the Author of the DAILY GAZETTEER.

SIR,

S it is become extremely fashionable to appear a passionate Lover of Justice, and to express a flaming Zeal for the Interest of one's Country, I hope you will not refuse a Place to the following Heads of Inquiry, in which I have endeavoured to unite both Equity and Patriotism, tho' with that Moderation for which your Discourses have been distinguished, and in which consists the Merit of a Publick Paper.

Query I. If this Nation has not suffered more from violent and Party Prosecutions, than from any other Cause whatever; and ought we not therefore to be most afraid of them, especially in critical Conjunctures?

II. If private Persons have any Claim to Justice from their Representatives, when they are not able to fix upon an Offence against any known Law, or to indicate any legal Kind of Proof?

III. If countenancing general, indiscriminate, and accumulative Charges flowing from Surmizes, or maintained by Implications, be not wounding natural Justice, and national Liberty; and whether the People have not more to fear from such Precedents, than from any Attempts of Ministers, who must be naturally against such Stretches of Power as may be fatal to themselves?

IV. If the Attraider of the Earl of Strafford was not rever'd because it was confessedly without legal Ground, and destitute of legal Evidence; and is not this Reversal a Rule to the Legislature?

V. It, in a late Case, the proposiog an extraordinary Method for discovering whether Crimes against Law, or legal Proofs, could be come at, be not a Demonstration, that such as knew most of that Matter knew of neither?

VI. If such as were against the Impeachment of the late Robert Earl of Oxford because he acted in Obedience to the Commands of his Royal Mistress, and in Support of a System he thought conducive to the Publick Good, can be for any Impeachment founded on Principles repugnant to those which they profess, and which tend to render Duty as dangerous as Disloyalty?

VII. If, as things are circumstanced at present at home and abroad, any thing can be more dangerous to the Common Cause, more fatal to the Publick Peace, or more likely to disturb our Councils, than a violent Party Prosecution?

Your constant Reader, and

Lincoln's-Inn,

Nov. 25, 1742.

Humble Servant,

THEODORUS VERAX.

Yesterday arriv'd a Mail from Holland.

Moscow, Nov. 5.

HER Imperial Majesty continues in perfect Health, and applies herself assiduously to the Affairs of Government, so that we have all the Reason in the World to expect Things will continue in Peace and good Order thro' all this extensive Empire. Orders have been dispatched to Petersburgh to provide every Thing necessary for the Reception of the Empress by the Close of the present Month, or the Beginning of the next; as also to Riga, for paying all the Honours due to their Birth and high Rank to the Prince and Princess of Brunswick, who is five Months advanced in her Pregnancy. Three Foreign Generals of great Distinction, and who have rendered great Services to the Russian Empire, having demanded their Dismission, her Imperial Majesty has demanded their Reasons, and promised them to consider them. Three Soldiers of the Life-Guard have been lately broke by the Czarina's Order.

Copenhagen, Nov. 30. His Majesty has suddenly given Orders for forming Three Camps, each of between 8 and 10,000 Men, one in Norway, one in Zealand, and one in Holstein. His Majesty is also fitting out a powerful Fleet, for which Reason he has thought proper to lay an Embargo. As all these quick Measures have been taken immediately after Signing a Treaty of Commerce with France, the People are afraid the Devil of Discord will transfer himself hither from Sweden.

Naples, Nov. 30. The Grand Signior having made his Majesty a Present of a very fine Elephant, and the same being safely arrived, it was on Thursday last brought into Triumph thro' this City. Two Days after arrived fifteen fine Horses, Arabians and Barbs, with two White

Dromedaries, a large Lion, and two Tygers. These are presented to his Majesty by the Bey of Tripoli, who sent over, on this Occasion, his Brother Mustapha, Bey of Bona, attended by a Train of about 30 Persons, who are lodged and entertained at the Palace of the Duke de Campo-Chiaro, and will be so, as long as they continue here.

Lucca, Nov. 16. All the Troops of the Grand Duchy of Tuscany are in full March for the Frontiers, in order to join a considerable Body of Forces sent by Count Tras to their Assistance, who have already enter'd the Passes of Pistoia. It is out of doubt that Count de Gages had positive Orders from his Court to fall into the Grand Duchy, and make the Conquest of it if he could; but this Order being intercepted by the Hussars, all his Endeavours must now prove abortive.

Bologna, Nov. 20. It must be owned, that the Austrians and Piedmontese have done all in their Power to provoke the Spaniards to a Battle, but the latter have very prudently kept within their Intrenchments, till the Weather has ridded them of these troublesome Enemies, and allowed both Sides to go into Winter-Quarters; which is the Measure they are actually taking as fast as possible. It is rumoured very strongly, that Eight Battalions of Neapolitan Troops, which have been all along in Spanish Pay, are to march to join the Army in our Neighbourhood, and on their Arrival it is expected the Spanish Cavalry will march into Romagna, where there is still Forage, having eaten up ours.

Montmelian, Nov. 24. Our Army suffers prodigiously thro' the Fatigues to which it is exposed, as well as from the extreme Rigour of the Season. His Majesty however shares himself in the former, and takes all imaginable Care to defend even the Private Men from the latter. One thing favourable to us is, that the Spaniards are as much pinched both by hard Duty and the Inclemency of the Weather as we. His Majesty has lately made a new Disposition of his Forces, so that between the Brigades the Field-pieces are planted, laden with Cartridges, and each Battalion marches in Eight Divisions, each commanded by an experienced Officer. We hear there are great Divisions in the Enemy's Councils.

Dresden, Nov. 30. The taking of Leutmeritz by the Austrians is confirmed. General Wallis summon'd it on the 24th, when the French endeavour'd to set fire to their great Magazine, and to escape out of the Town; but this was prevented by the Croats and Pandours, who drove them back into the Place, and then a Drum was sent to inform them, that if they did not extinguish the Fire they had kindled, they should have no Quarter. This made them work so hard, that in two Hours they had brought the Fire under, and then they surrendered at Discretion. There were 200 killed and 700 made Prisoners of War.

Ratisbon, Nov. 29. Tho' we have no Letters directly from Landau and Deckendorff, yet we are pretty certain the Austrians have abandon'd both these Posts, because we have good Advice of their having form'd themselves behind the River Vils, in such a Manner, that it is impossible to attack them. These Advisers are confirm'd by the News we have receiv'd this Morning, that the French Troops, which have pass'd the Iser, with Intent to have attacked the Austrians immediately, were repelling it again, having thought better of it, and being now inclined to go into Winter-Quarters, if they can find them. This Moment a Courier is arrived from Straubingen, from whom we learn, that the Marshal Broglie is still there, which is a certain Sign that his Fit of Heroism is over for this Season, and that he has no Thought of dying or conquering in this cold Weather. There are Letters from Salzburg which say, that there has been a sharp Action between Seckendorff and Berenclau, wherein the former tho' much the strongest has been soundly beaten, and is thereupon retir'd to Munich, in order to prevent if possible that Place from falling a second time into the Hands of the Austrians.

Brussels, Dec. 3. The Earl of Stair has lately had several Conferences with the Duke of Arenberg and Pr. George of Hesse Cassel, with relation to the March of the Auxiliary Troops, which, as things stand, is a Matter of the last Importance to her Hungarian Majesty. Velt Marshal Neuperg is gone to Luxembourg, in order to make the necessary Dispositions for the Accommodation of the English, Hanoverian, and Hessian Troops, which are to march that Way into Germany. 'Tis certain that the March of these Forces at this Season of the Year is very fatiguing, but then it is no less certain, that the French on their Side are preparing to send a large Reinforcement into Bavaria, where Prince Charles of Lorrain finds himself oblig'd to send for two Regiments of Horse and four of Foot from Prince Lobkowitz.

Dr. BATEMAN's Original and ONLY TRUE Wholesale and RETAIL WAREHOUSE at the PRINTING-OFFICE, facing the South Door of Bow-Church, the Lower End of the Church-Yard, from Cheapside, LONDON.

THE DAILY SUCCESS which has constantly attended the Taking Dr. BATEMAN's PATENT DROPS, in the several Dosepots of Colds, Coughs, Pains in the Breast, Limbs, and Joints; has gain'd such a universal a Character, that few Families care to be without them in their Houses. — Besides the Dosepots above-mentioned, there is no one Medicine, since the Discovery of the Rheumatic Pains, Gout, Stone, Gravel, Cholick, Fluxes, &c. Innumerable Instances might be given of the Happy Effects thereof, but we choose to refer to a Book, call'd 'A Treatise of the Virtues of Dr. BATEMAN's PATENT DROPS, given gratis, at the Warehouse above-said; where all Shop-keepers, &c. in any City, Town, or Village, where these Drops are not already Sold, may be supplied, with good Allowance to sell again, by Directing or Sending to the PATENTEE,

BENJAMIN OKELL,  
W.M. and CLARA DICEY.

The Surprising Encouragement, which by constant Success, these most Valuable Drops have, for upwards of Twenty Years, met with, not only in Great Britain and Ireland, but in all Parts of the West-Indies, and other Foreign Countries, has lately induced several mean and mercenary Pretenders to Counterfeit them; and by imitating our Seal, Bill of Directions, and Show-Boards, with our Method of Advertising, wherein as they can or dare to do, without making them the same, and thereby impose their dangerous Compositions upon the unwary and credulous Shop-keepers both in Town and Country, in the True and Genuine Sort.

The PATENTEE and Company therefore, in Gratitude to the universal good Reception they have so long met with, and for the Safety of those who for the future may be deceived using the same, think themselves absolutely obliged to give this necessary Caution,

Which they earnestly request may be observed.

THAT the Bottle they Buy is not only Sealed with the Boar's Head, but has these Words round it, BY THE KING, PATENT, as in the Margin; and also that the Names of the PATENTEE, Dr. OKELL, William and Clara DICEY, be in the Bill of Directions given with each Bottle; without which you may be affir'd it is a notorious Counterfeit, and may be of the most dangerous Consequence.

N. B. That these Drops are also Sold Retail (as well as Wholesale) at the Warehouse aforesaid, at One Shilling per Bottle, containing three Doses.

The most Fam'd and long Experienced Chymicall Drop for ASTHMA's and CONSUMPTIONS, That have been Sold so many Years, and with such unintermitting Success and Benefit to the Publick, by Mr. Parry, and his Predecessors, in Boar's-Head-Court, Fleet-street; and, since Mr. Parry's Decease, have been still sold in London only by Mr. Read for 3. 6d a Vial, at his House in White-Fryars. (N. B. You may in just by the Sun Tavern in Fleet-street, and in the great Corner House in White-Fryars; JAMES READ, in great Letters, is wrote over the Door.)

They are a most Incomparable and never-failing Medicines for the immediate Relief and perfect Cure of this confirmed ASTHMA of the longest standing: And of all Sorts of CONSUMPTIONS, even when far advanced, as not to be cured by any other Medicines in the World.

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst ASTHMA's and CONSUMPTIONS of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an ASTHMA, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate ASTHMA of the longest standing. They speedily and to Admiration cure all Sorts of CONSUMPTIONS, Ulcers of the Lungs, &c. removing all Obstruction to the Breast and Lungs, Hoarseness, Wheezing, Sore-throat, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceedingly tritice and strengthening to Persons of weakly Constitution, and have no other sensible Operation than to occasion a gentle Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Coughs, and Hooping-Cough in Children, having even Thousands; is so agreeable, and so few Doses to a Dozen, that Children take them with Pleasure, and without any Dislike.

In short, these unparalleled Chymical Drops are the most infallible Remedy that ever was known (and therefore deserves the faint Efforts of all Counterfeitors or Imitators) for the Ailments above-mentioned, and allowed to be so by the Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Polite for Common Good.

N. B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c.

Good Allowance is given by the Dozen to sell them again. They will keep good many Years, well cork'd, in any Climate.
